## Boat Launching & Haul Out 2023

For 2023 the rota system for hardstanding officer will continue. The 'officer of the month' will **co-ordinate ALL boat movements** on the slipway and hardstanding for that month.

**Requests** for Assisted Haul Out or Launching using the Winch or Tug are to be made **to the officer of the month** and also noted on the sheet in the cabin. The officer of the month will arrange the actual dates according to demand and arrange for an authorised Winch Operator and/or Tug Driver and allocate boat parking (if required). The vessel's owner is responsible for arranging all other assistants. Assisted Haul Out and Launching is at the discretion of the winch or tug operator. Liabilities arising during assisted launches due to incorrect loading of the vessel on the trailer or faults with the vessel or trailer are the responsibility of the vessel's owner.

Self launching/haul out using your own vehicle and road trailer is allowed, provided the trailer and boat combined weight is within the **legal towing capacity of the vehicle used and is at the liability of the vessel owner**. **The officer of the month must be informed** to confirm slip availability and boat parking space.

In all cases the vessel owner **MUST** complete the Launching/Haul out log (in the cabin) and present evidence (physical or electronic) of 3<sup>rd</sup> party liability insurance.
